

# FISH PURCHASES

1 Fish purchases by SALICA over the period 01.10.2021-30.09.2022 by type of provider:

2 Fish purchases by SALICA over the period 01.10.2021-30.09.2022 by origin of fishery resource:

In accordance with the provisions of our Responsible Purchasing Policy, we work every day to improve the sustainability of the fishing resource, committing ourselves to reduce the percentages of purchase of fish that do not belong to any of the established categories.

On the other hand, and with the aim of improving the stock of Yellowfin in the Indian Ocean, we are committed to reducing its purchase by between 11% and 22%, by 2024, compared to what was purchased in the period 2017-2019.

True to our responsible purchasing policy, 100% of the fish caught by longliners comes from vessels registered in the PVR.
